

EDWARD KYE

Software Engineer

WORK EXPERIENCE

PUBNATIVE | Software Engineer

New York, NY | February 2020 - Present

Mobile publisher platform and programmatic ad exchange

- Selected to stay onboard as a contractor to assist in migrating Verve to PubNative (Media & Games Invest).
- Train new members on the front-end team.
- Maintain and continue to build custom mobile ads using JavaScript/HTML/CSS.
- Implemented a new CDN to deploy ads and purge cached content using third-party documentation and API.
- Set up new AWS S3 buckets for transcoding videos and deploying ads.

VERVE | Software Engineer

New York, NY | January 2019 - January 2020 (Acquired by Media & Games Invest)

Location-powered mobile marketing platform

- Built, tested, and deployed hundreds of custom mobile ads - banner, expandable, animations, videos, games, and more.
- Templatized the skeleton of custom ads (carousel, map, etc.) to optimize developing time.
- Helped build and redesign the UI of an order management system using JavaScript/CSS/React/Redux for optimal user experience.
- Collaborated with mobile and platform engineers to build a new SDK(4.0) to integrate and handle new functionalities.
- Shifted the deployment of custom ads to a new internal ad server.
- Hired, trained, and led two engineers.

SOFTWARE APPLICATIONS

RALLY | Software Engineer

New York, NY | 2018

Tennis matchmaking with an elo ranking system

- Spearheaded all views of the application to maximize user experience using JavaScript/React/CSS.
- Optimized Apollo and GraphQL to handle multiple queries and mutations for speed and scalability.
- Constructed the schema and tables on the back-end using GraphQL/PostgreSQL.
- Assembled Firebase Google OAuth for user authentication.

ABOUT ME

Hi! I'm Ed. I'm interested in front-end/full-stack technologies, accessibility, and collaborating to make great user experiences. When I'm not coding, I enjoy omakase sushi, pasta, and playing strategy games. I want to continue to learn, and I'm always willing to try new things.

SPECIALIZATIONS

JavaScript (ES6), HTML, CSS, React, RESTful API, Node, Git

Experienced: Angular, Redux, Apollo, Express, GraphQL, Mongoose, Sequelize, MongoDB, MySQL, PostgreSQL, Firebase, Heroku, AWS

EDUCATION

HACK REACTOR

Software Engineering
Immersive Program | 2018

RUTGERS UNIVERSITY

B.A Psychology | 2013
